SUMMARY

I am a passionate Full-Stack Developer with extensive experience in building scalable web applications using React.js, Angular, Spring Boot, and SAP ABAP Cloud. With a strong foundation in Java, Python, and Data Structures, I excel at designing REST APIs, managing databases, and solving complex problems. I thrive in collaborative environments that value teamwork, problem-solving, and agile development. My strong time management and communication skills enable me to deliver efficient, reliable, and impactful software solutions, particularly in IoT systems and user-centric applications.

EDUCATION

Centurion University of Technology and Management *September 2022-June 2026*
Paralakhemundi, Odisha

- Bachelor of Technology in Computer Science and Engineering - CGPA : 9.6

EXPERIENCE

GHN Universal Solutions - [Remote]
Full Stack Developer Intern *Mar 2025 - June 2025*

- Built and integrated scalable e-commerce modules using React.js, Spring Boot, and MySQL.
- Designed user/admin dashboards and product pages with responsive, modern UI.
- Used Docker, Swagger, and Eureka to improve deployment, API documentation, and microservice handling.

SAP
SAP Backend Development Trainee *August- September2025*

- Completed 2-month intensive training focused on ABAP Cloud and backend development in SAP S/4HANA environment.
- Developed and tested ABAP applications leveraging CDS Views and the Restful ABAP Programming.

PROJECTS

Smart Pond Monitoring *September-2024*

Technologies: ESP8266, Spring Boot, MongoDB, VS Code, Arduino IDE , Angular

- Built a real-time IoT-based monitoring system integrating temperature, pH, and water level sensors.
- Designed an Angular dashboard for live sensor visualization, reducing manual checks by 60%.
- Implemented alert mechanisms for abnormal values, improving fish health outcomes.

Kmart Ecommerce Web Application *May 2025*

Technologies: Spring Boot, ReactJS, MySQL, REST API

- A scalable e-commerce web application built with microservices architecture
- Developed a microservices-based e-commerce platform with authentication, orders, and payments.

CERTIFICATIONS

- SAP Certified Associate – Back-End Developer – ABAP Cloud
- Data Structures and Algorithms using C for Placements - Code Tantra
- 16-week CUTM Training Program - Geeks for Geeks

TECHNICAL SKILLS

- **Languages:** C, Java, SAP S/4HANA, ABAP, Python, Data Structures, JavaScript, TypeScript, SQL, HTML, CSS
- **Frameworks/Technologies:** React, Angular, Spring Boot, Bootstrap
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, VS Code, Docker, Swagger, ArduinoIDE

KEY ACHIEVEMENTS

- Solved 250+ coding problems on LeetCode, strengthening data structures and algorithms skills.
- Earned 5-star badges on HackerRank in Python, C, and Java.
